Technology & Business Society CIO Advisory Council (CIOAC) Event - 9 December 2013, The Ritz-Carlton Bahrain

Keypoint successfully delivered a session on “Advanced Persistent Threat: Challenges & Solutions” at the CIOAC event organised by Technology and Business Society.

Technology and Business Society is a Bahraini society specialised in providing technology solutions to medium and large enterprise in vital sectors of Bahrain economy, with a future vision to position the Kingdom as a regional leader in the technology industry and in alliance with Bahrain Vision 2030.

The session covered following topic:

- Advanced Persistent Threat (APT)
- Evolution of APT
- Landscape
- Case studies based on incidents in the region
- Business impact in the region
- APT Life cycle
- Basic types of attacks
- APT preventive measures
- Right investment areas to prevent APT threats
- Keypoint Innovation Center & Advanced Security Center
